

## Reviewing of papers for CIRED 2023

All papers submitted to the CIRED Porto Workshop 2022 are peer-reviewed in two phases:

- Abstract submission (deadline: 26 November 2021)
- Full paper submission (deadline: 11 February 2022)

The reviewers include the CIRED Porto Workshop 2022 Committee, as well as, if any, the National or Liaison Committee of the author's country.

These reviews are all taken into account when considering the acceptance of a paper.

### You can find more information on our websites:
